About Company

Established in 1991 in Opava, DATA-INTER is a Czech owned company, providing IT solutions, support and consultancy services. We sell and support the full range of IT hardware and software including servers, storages, network devices, security solutions for physical, virtual and cloud environments.

Since 1993 we are authorized IBM (Lenovo) Service Provider. We are authorized Business Partner of Dell, HP/HPE, Lenovo, Palo Alto Networks, CheckPoint, VMware, Veeam, Kaspersky Lab and many others.

We have clients ranging from SMB to multinational companies and government. We have built reputation and business relationships on the principles of trust and quality of solutions.
